ABSTRACT:

PURPOSE: To select two kinds of screw holes, that is, screw holes for a tripod and plural screw holes for attaching screws, at the time of attaching a video camera to an industrial equipment.

CONSTITUTION: Two kinds of screw holes, that is, screw holes 5a and 5b for the tripod, and plural screw holes 6a and 6b for attaching screws are respectively provided at the upper face 2A of a camera main body 2 and the opposed bottom face 2B. Then, the screw holes for the tripod or the plural screw holes are freely selected according to the kind of the industrial equipment.
